

*New York Sea Grant, Long Island Sound Study, and
New York State Marine Education Association present:*

Marine Debris

A Long Island Sound Mentor Teacher Workshop

Designed for Science Educators

All lessons aligned with NYS Science Learning Standards 5-12

All participants will receive 6 professional development hours and a starter kit that includes: Teacher curriculum resources guides and lesson plans, survey forms, and resources to use with your students.

*Explore research sample techniques as we focus on a global wide threat to our environment,
plastics and marine debris in our environment.*

*Utilize scientific thinking by using an experimental approach by controlling independent and
dependent variables in a field study you can share with your class.*

Bring your iPhone, iPad or Smart phone to learn how to track our pathways with GPS technology apps.

Empower your students by engaging in civic action in your community.

Share ways of reducing, reusing and recycling through art and music.

Location: Western Long Island Sound at Orchard Beach, Pelham Bay Park, Bronx, New York

Date: Saturday, September 20, 2014
