

# Geo-science Outdoor Research Program (GORD)

Come discover the wonders of Long Island's geology.

This course was designed by professional geologists and Earth Science Teachers, and is geared for all Science Educators. All lessons are aligned to the NYS Science Learning Standards 1, 2, 6 & 7

Bring Long Island's natural resources into your classroom.  
Better yet, bring your classroom to experience Long Island's unique geology.

All participants will receive **6** professional development hours and a starter kit that includes: curriculum resource guide(s), field guide(s), and equipment.

Come enjoy, explore and engage in an exciting day of geology on Long Island. We may not have the Rockies or the Himalaya's in our back yard, but we do have pieces of Connecticut, Massachusetts and maybe even Vermont that we can find. Bring real geology back to your classroom OR design a trip for your students, family, and/or friends.

**Location:** Stony Brook University's Calverton Business Incubator followed by a site visit to Wildwood State Park

**Date:** Saturday, October 17, 2015 (rain or shine)

**Time:** 9:00 AM to 3:00 PM

**Cost:** \$15 – Includes breakfast and lunch.

Register online at <http://tinyurl.com/lismt>. Deadline for registration is September 26<sup>th</sup>. If you have any questions, please contact Amy Mandelbaum, Long Island Sound Study Outreach Coordinator, at [acb328@cornell.edu](mailto:acb328@cornell.edu) or 631-632-9216. This workshop is limited to 20 participants.
