

Awesome Estuaries

A Long Island Sound Study Mentor Teacher Workshop

Designed for Science Educators

All lessons are aligned with NYS Science Learning Standards 5-12

All participants will receive 6 professional development hours and a starter kit that includes:
Teacher curriculum resource guides, field guides, and equipment

Let this be your personal interaction with the living environment!

We'll seine, we'll dipnet, and we'll test water.

Join us as we explore mollusks and arthropods in the inter-tidal zone, identify ecosystem services, and discuss current threats to the estuary we love.

Then, bring the Wonder of Nature back to your classroom through:

- nature stories
- writing & art
- math & science
- field trips catered to your students

See the joy of nature in your students' eyes!

Let us help you create fun, interactive, and engaging activities in the classroom and in the field!

Location: **Sunken Meadow State Park**

Date: **Saturday, September 21, 2013**

Time: **9:00am – 3:00pm**

Cost: \$15 Registration Fee. Breakfast & Lunch will be provided.
