

Meeting Agenda

SHARP COLLABORATION

Date: 01.23.23

Time: 10.00am to 12:00pm

Location: Virtual: Teams

Facilitators: Samarra Scantlebury & Kathleen Knight

Meeting Description: CCSM oversees implementation of a broader dynamic monitoring program to evaluate and make recommendations regarding the scope and magnitude of potential climate change impacts to LIS, and develop adaptive management strategies to address the impacts. To establish this monitoring program in the LIS CCSM exploring the available information regarding the related parameter monitoring. This meeting is to explore the available information collected under the [Saltmarsh Habitat & Avian Research Program](#); the programs needs, recommended next steps and how this may overlap with a potential aspect to the Climate Change Sentinel Monitoring network.

Meeting Goals:

- Established a shared understanding of the existing and intended continuance of data available through SHARP
- Establish a shared understanding of data gaps.
- Identify climate change monitoring collaboration opportunities.

SHARP Program in Connecticut
